We understand the importance of minimal disruption and we strive to complete our work efficiently. To ensure a smooth process, we suggest considering the following factors.

## Think through What You Like

Our process begins with understanding your preferences and style. Don't worry if you are not familiar with furniture/decor names or design terms, simply share your inspiration with us. During our meeting, we encourage you to bring/send any visual aids such as pictures, videos, or magazine clippings to aid in the conversation and better understand your vision. This helps us to create a space that reflects your personal style.

## The Process

After our initial consultation, where we gather inspiration and understand your preferences, we will then proceed to create a customized design plan that incorporates your desired elements and fits within your budget. Our team of experts will work closely with you to ensure the design aligns with your vision and preferences before moving forward with the implementation. We will keep you informed every step of the way and make any necessary adjustments to ensure your complete satisfaction with the final result.

## Completion

Upon completion of the project, ownership of the designs and drawings will be transferred to the client upon receipt of full payment. Final deliverables will not be dispatched until payment is received. This ensures that the client has full control over the final design and are satisfied before the end of the project.
